Dear Mr. Menadier:

I want to thank you for taking care of my Social Security problem. I appreciate everything you did for me and for being so concerned. Really, I never thought that I would get this settled and now I am so happy that it is.

Also, please tell Mr. Bill Roller that my neighbor, Miriam Bisko watches his "In Your Interest" often because she is a member of the "Home Shopping Club" and she said that the program is very interesting, informative and enjoyable. I am so glad that she watched this program and saw you on it.

Thanks again Mr. Menadier for all your help. Best of Luck to you always.

Dear Ms. White:

I had an opportunity last evening to view the three segments on Scleroderma which appeared on "In Your Interest" sometime in August.

The segments were very well done, extremely informative, and much needed. We have had several calls from persons particularly in the New Jersey area.

We certainly appreciate your assistance in helping to publicize this devastating but little-known disease. Thank you on behalf of all persons suffering from scleroderma.

Very truly yours,

Gentlemen:

Several days ago you aired a segment on the disease Scleroderma. Unfortunately, I tuned in towards the end of the segment and missed the telephone number you shared for the Scleroderma group. (SCLERODERMA)

I would appreciate it very much if you would send me the telephone number so that I might contact them.

Thank you.

I am enclosing a self-addressed, stamped envelope for your convenience.

Dear Sir or Madam,

I am a new viewer to your show and have found it not only very well done but also very informative.

In response to your request for ideas for future programs, I would like to suggest that since April 18-24th is "National Library Week", you may wish to highlight this annual event. This year's theme is "Libraries Change Lives".

As a school library media specialist, I know how important libraries and reading is to our children and the public at large.

Thank you for your time.

Continued success with your show.

Yours truly,

I am watching the Home Shopping Club, I am a member for 2 years.

During the break I listen to your guests on in your interest.

Maybe you can help me with this question or give me the address of someone who can.

In 1988 I heard on the news that by the end of that year there will be a drug that will help people who suffer from Schizophrenia and Paranoia, I have a member in my family who can not lead a normal life because of that, I would be very grateful if you could help me with this question. I never heard about it on the news again and I

Dear Bill,

The final count is in on the Third Annual Firefighters Ski Race for the benefit of St. Barnabas Burn Center. Because of people such as you, donating their time and effort to such a worth while cause we were able to give St. Barnabas over \$15,000 this year.

As always the fun and camaraderie we experience adds to this beneficial day, but knowing we are helping burn victims who sometimes cannot help themselves gives us a great feeling of accomplishment which we would like to share with you.

We acknowledge the fact that the weather was certainly not the best for you to spend outdoors all day. In spite of this you were able to add humor to your announcing, which was greatly appreciated by all.

We wish to express our gratitude for your support, it is caring people like you that make this event successful.

Dear Mr. Roller:

On behalf of Mayor Cardell Cooper and the City of East Orange, I wish to thank you for your cooperation in publicizing the JAZZ AT THE PLAZA Festival.

This five part series was a first for the city and because of your help in getting the word out, it proved to be a great success.

This event which was intended as an initial step in the city's effort to take its parks and recreation centers back from those undesirable elements who would leave it in ruin to achieve their own ends was well received by residents. It has already been placed on the schedule as a primary activity for next summer.

Thank you again for your cooperation.

Dear Bill:

Thank you for giving me the opportunity to be a guest on your talk show, "In Your Interest" wherein I discussed the topic of "Headaches" with you.

This particular show was viewed by many individuals including many of my patients who found it very useful. The educator of Clinical Nursing at Union Hospital is going to play this tape again for Union Hospital nurses.

Considering the success of this endeavor, it may be worthwhile doing a couple of follow-up talk shows on the subject. The talk show previously done on August 13, 1990 may be repeated in the interest of many individuals who missed the show, having heard about it from others, and would like to see it for themselves.

Thanking you once again and looking forward to seeing you in the future, I remain.

Sincerely yours,

Dear Bill Hoken,

Thanks so much for agreeing to air Youth For Understanding's PSAs on Channel 68. With your help, members of our community will learn how rewarding becoming a host family for a YFU international student can be. ~~So~~ many alumni of YFU programs find they learn and grow tremendously through living with a family in

another country and families find they enjoy another culture without leaving home when they host a YFU student.

Thanks again for your help.

Dear Mr. Roller:

I have watched your segment of the program on HSC and besides finding it very interesting, I have learned some important information that I was unaware of in the past.

Mr. Roller, I have a human interest story and wonder if you can help me get it to the right people. My son-in-law died a year ago from what was diagnosed as cancer throughout his body or Agent Orange. He would have been fourty years old.

At that time I started to read the obituary column and was shocked to see that within a six month period, so many boys have died at that age and they were all in Viet Nam in the sixties.

I am enclosing a partial list.

Mr. Roller if you can't help, I would appreciate it if you would return the list to me. I think that if anyone would know who I can forward this information to, it would be you. He left a handicapped widow and two children. Incidentally his son just reached 18 and so he is not qualified for any social security. My daughter gets only approximately \$500 a month. Also although my grandson got 1450 on his SAT'S, my daughter is finding it very difficult to get fiancial aid towards his college. What happened to the saying " a brain is terrible thing to waste"?

Thank you for your cooperation.

Dear Mr. Roller:

Per our telephone conversation of today, I wish to thank you, and Channel 68 for your segment on EIES of New Jersey.

I called EIES, and they referred me to In Touch Network, which handles Metropolitan New York area. I just got my receiver today, and it is just wonderful to be able to read the newspapers and magazines again.

I intend to inform other vision impaired persons about this service, as I am many of us do not know about it.

Again, many thanks for your help.
